DAAM — Review Guide

Decentralized AI Agent Marketplace (PoC)

This branch (`main`) is the entry point. Review deliverables in this order: video → documentation → codebase.

---

1. Review the video

```
git checkout video
```

Open `daam-video.mp4` to watch the product overview.

---

2. Review the documentation

```
git checkout doc
```

Start at `docs/README.md`. It indexes the full document set (vision, architecture, PoC scope, and technical supplements).

---

3. Review the codebase

```
git checkout codebase
```

Explore the app source:

Folder	Contents
`frontend/`	React UI
`backend/`	API server
`contracts/`	Smart contracts

To run the app, follow `SETUP.md` on the `codebase` branch.

Branches

Branch	Contents
`main`	This review guide (entry point)
`video`	Product overview video
`doc`	Documentation
`codebase`	Application source
